SOUTH CAROLINA SECOND INJURY FUND

Douglas P. Crossman

Director

MISSION

The Second Injury Fund functions within the South Carolina Workers' Compensation System. The mission of the Fund is twofold:

1. To protect employers from having a higher cost of injury that, when combined with a prior disability, results in substantially increased medical costs or disability than the accident alone would have produced. This ensures that an employer is not made to suffer a greater monetary loss or increased insurance costs because it hires or retains an employee who has a disability.

2. To ensure payment of workers' compensation benefits to injured employees whose employers have failed to comply with the coverage provisions of the Workers' Compensation Law.

YEAR IN REVIEW

The number of employers benefiting from the Second Injury Fund was increased to 1,868.

With our reimbursement auditing process we have been able to reduce the Fund's payout by 3.3 million dollars. This savings resulted in a 9.17 million dollar reduction in the annual assessment.

We accepted 1,724 claims, of these 92.6% or 1,586 were within 4 years of the date of accident. This ensures that these claims should not adversely affect the employers' workers' compensation insurance premium.

The number of employees benefiting from the Uninsured Employers' Fund was 426.

The amount of monies recouped from employers found in violation of the law was \$899,306.00. This represents approximately 30% of monies paid by the Fund and is a 19% increase over monies recouped in Fiscal Year 1997.

The Second Injury Fund's primary concern at the beginning of this year was the increase in the number of days needed to process claims payments. With a new position approved in FY99-00 budget, we have reduced the number of days to process claims payments from 31 days to 8 days.

Through a cooperative effort between representatives of the Fund, the Governor's Office, Department of Insurance, Workers' Compensation Commission

and the insurance industry, legislation was drafted and passed amending our method of assessment. This amendment was necessitated by a Statement of Position issued by the American Institute of Certified Public Accountants requiring insurance carriers to reserve future assessments by second injury funds or "like funds" if these assessments were based on losses paid. The amendment changed our method of assessment to a "normalized premium" base from a loss base. The combined efforts of all the parties involved in this legislative process prevented a possible financial hardship on the insurance carriers doing business in our state.

We have conducted a Customer Performance Evaluation Survey for FY99-00. The survey was developed to measure the Five Dimensions of Service Quality; Reliability, Responsiveness, Empathy, Assurance and Tangibles. This survey consisted of 10 questions, measurable by using a 4-point Likert-type scale, and 2 open-ended questions. It also had additional space for written comments. We had a 50% response to the survey with astounding results. The percentage of positive response was 99.6% which represented 445 out of 447 responses. We will use the responses to the open-ended questions and the comments to better understand customer's expectations and preferences and for improving our services. This survey will be used as a foundation for our customers to annually evaluate our performance.

SECOND INJURY FUND

Director

The administration and operation of the Fund is the responsibility of the director who is appointed by and serves at the pleasure of the Budget and Control Board.

Under the general supervision and management of the director are the Fund's four functional divisions.

Claims

The Claims Division is responsible for the investigation, evaluation and development of action to reach a final decision for each claim. Conflicts of a non-judicial matter are resolved in the claims division.

Recoveries

The Recoveries Division is responsible for the recoupment of all benefits, costs and expenses paid by the Uninsured Employers' Fund. These recoupments are levied against the employer or whoever was legally responsible for payment of the claim.

Legal

The Legal Division represents the Fund in contested hearings before the Workers' Compensation Commission and in all appeals to higher courts.

Administrative

The Administrative Division is responsible for all internal programs such as assessment, finance, budgeting, human resources and staff development. They are also responsible for all administrative support to the Director and the three divisions.

STATUTORY AUTHORITY FOR THE AGENCY

Section 42-7-310 of the South Carolina Workers' Compensation Law creates the Fund and establishes the agency to administer the Fund in accordance with the provisions of Sections 42-9-400 and 42-9-410.

The following outline lists the basic requirements for reimbursement:

1. The employee must have a prior permanent physical impairment of such seriousness as to constitute a hindrance or obstacle to obtaining employment or re-employment.
2.
 - (a) The employer must prove that he had knowledge of the permanent physical impairment at the time the employee was hired or retained when a claim is made for reimbursement; or
 - (b) The employer may qualify for reimbursement if he can prove that he did not have prior knowledge of the employee's pre-existing physical impairment, because existence of such condition was concealed by the employee or was unknown to the employee.
3. The employee must sustain a subsequent occupational injury:
 - (a) Which results in the employer's liability for disability and/or medical cost that is substantially greater than that which would have resulted from the new injury alone because of a combination with or aggravation of the prior impairment.
 - (b) Which most probably would not have occurred "but for" the presence of the prior impairment.
 - (c) Which results in the death of the employee, and the death would not have occurred except for the pre-existing impairment.
4. An amendment to the Code now requires as a prerequisite to reimbursement from the Fund, the insurer shall be required to certify that the medical and indemnity reserves have been reduced to the threshold limits of reimbursement.

Before the Fund can reimburse an employer, a disabled worker must suffer a subsequent injury. This injury must combine with or aggravate the prior impairment, thus causing liability substantially greater than that which would have occurred from the subsequent injury alone. This is the basic concept of Second Injury Fund legislation, and without this substantial increase in liability, the employer has not been placed at a disadvantage. Therefore, he would not be eligible for reimbursement.

ASSESSMENTS

Section 42-7-310 subsection (d) of the Workers' Compensation Laws of South Carolina states that:

The funding of the Second Injury Fund on a continuing basis shall be by equitable assessments upon each carrier (which, by definition herein, shall include all insurance carriers, self-insurers, and the State Accident Fund) in a manner as follows:

Equitable assessments upon each carrier which, as used in this section, includes all insurance carriers, self-insurers, and the State Accident Fund. Each carrier shall make payments to the fund in an amount equal to that proportion of one hundred seventy-five percent of the total disbursement made from the fund during the preceding fiscal year less the amount of net assets in the fund as of June thirtieth of the preceding fiscal year which the normalized premium of each carrier bore to the normalized premium of all carriers during the preceding calendar year. Each insurance carrier, self-insurer, and the State Accident Fund shall make payment based upon workers' compensation normalized premiums during the preceding calendar year. The charge to each insurance carrier is a charge based upon normalized premiums.

These assessments were sent to each carrier in September 2000 and payments subsequently received at the Second Injury Fund.

175% of the Disbursement is \$119,866,080.64
Less Remaining Net Assets @ June 30, 2000 \$47,681,509.53
Equals SIF Assessment for 1999-2000 \$72,184,571.11

This assessment (\$72,184,571.00) divided by the aggregate normalized premium for all carriers (\$652,775,604.00) equals the assessment rate (.110580988) applied to each carrier.

SOUTH CAROLINA WORKERS' COMPENSATION UNINSURED EMPLOYERS' FUND

The State Workers' Compensation Insolvency Fund, S.C. Code Section 42-7-200, was established on February 24, 1982. On April 26, 1989, an amendment to this Act placed the administration of the Fund with the South Carolina Second Injury Fund. On June 12, 1990, it was changed to the South Carolina Workers' Compensation Uninsured Employers' Fund.

The mission of the Uninsured Employers' Fund is to ensure payment of workers' compensation benefits to injured employees whose employers have failed to acquire necessary coverage.

For a claim to come within the scope of the Uninsured Employers' Fund, there must first be a finding by the Workers' Compensation Commission that an employer is subject to and in violation of the Workers' Compensation Law as a result of their failure to provide the necessary insurance coverage. If that determination is made, the Fund may then consider the merits of an employee's claim and pay or defend the claim as it deems necessary. Once the Uninsured Employers' Fund has paid a claim, it is entitled by statute to recover the benefits, costs and expenses from the employer or whoever is legally responsible for payment.
